***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7 and 11, drawn to a method of identifying a compound that inhibits E7 cellular proliferation activity comprising administering a compound and assaying the effect of compound comprises using an antibody for Akt.

Group II, claim(s) 8, 9 and 14, drawn to a method of making a compound that inhibits E7 cellular proliferation activity comprising selecting a compound which affects the amount of Akt activity.

Group III, claim(s) 10 and 15, drawn to a method of identifying a compound capable of reversing the effect E7 has on Akt comprising selecting a compound which inhibits E7 maintenance of Akt activity.

Group IV, claim(s) 12, 13 and 16, drawn to a method of inhibiting E7 cellular proliferation activity comprising administering an inhibitor of E7 maintenance of Akt activity.

Group V, claim(s) 17 and 18, drawn to a method of identifying a compound which promotes the nuclear localization of p21<sup>Cip1</sup> comprising assaying the effect of the compound on E7 p21<sup>Cip1</sup> cytoplasmic localization activity.

Group VI, claim(s) 19, drawn to a method of identifying an inhibitor of interaction between Akt and E7 comprising administering a compound and selecting a compound which inhibits E7 Akt interaction.

Group V, claim(s) 20-27, drawn to a cell comprising a nucleic acid comprising a sequence encoding Raf.

Group VI, claim(s) 28-30, drawn to a method of inhibiting aberrant cellular proliferation comprising administering a compound which inhibits E7 maintenance of Akt activity.

Group VII, claim(s) 31, drawn to a method of inhibiting E7 cellular proliferation activity comprising administering a compound that promotes or maintains MEK-1 activity.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the method of Group I reads on a method of identifying a compound that inhibits E7 cellular proliferation activity comprising administering a compound and assaying the effect of compound comprises using an antibody for Akt. This method differs from the other method Groups in method objectives, endpoints, method steps and parameters.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
